

# Studio Nima - Internship

## Hydroponics Social Business (m/f/d)

At Studio Nima, our objective is to accelerate the growth and the emergence of social innovations that sustainably address the world's most pressing issues. Transforming our economic systems to make them more equitable, lifting people out of poverty, making cities more sustainable, promoting gender equality and fighting climate change - many of today's challenges require smart solutions. We have developed, planned, incubated, grown and advised social business models in a wide range of areas, from Circular Economy, Plastic Waste Recycling to Sustainable Cities, across the globe.

We are looking for an Intern as of January 2021 ideally for minimum 3 months to help setting up a very-early stage hydroponics social innovation project In Germany.

### Tasks

- Research on the social business potential and feasibility of a local hydroponics project
- Creation and development of a business- and project plan for the implementation of a hydroponics social business
- Support the conduction of the feasibility study for the implementation and the technical piloting of such a project
- Technical development of prototypes in the fields of hydroponics
- Support the advancement of a hydroponics-related publication

### Requirements

- Knowledge in technological innovations for development, in particular in hydroponics, urban- and vertical farming
- Good project management and analytical skills
- Preferably Bachelor's degree in Bio- and Environmental Technology, Agricultural Sciences, Agricultural Economics, Environmental Engineering or any related field
- Very good writing and communication skills (English and German)
- Understanding of the social business and social entrepreneurship field
- Reliable, accurate, proactive and fun to work with
