# Material Designer Intern (m/f/d)

At Studio Nima, our objective is to accelerate the growth and the emergence of social innovations that sustainably address the world's most pressing issues. Transforming our economic systems to make them more equitable, lifting people out of poverty, making cities more sustainable, promoting gender equality and fighting climate change - many of today's challenges require smart solutions. We have developed, planned, incubated, grown and advised social business models in a wide range of areas and across the globe.

We are looking for an **intern** as of December 2022 / January 2023 ideally for a minimum of 3 months to work on our circular economy projects and join us in our office in Munich.

## **Tasks**

- Experiment with non-conventional materials such as Mycelium, Algae and Biopolymers
- Develop projects both internally and in collaboration with external clients
- Conduct research about sustainable and innovative materials
- Support collaboration between existing and new stakeholders in sustainable product design

## **Requirements**

- Student in Materials Science & Engineering, Material Design & Innovation, Industrial Design, Design Management or comparable field of study
- Knowledge and/or interest in biomaterials, circular economy and sustainable product design
- Strong interest in material innovation & creating positive impact
- Good writing skills (English and German)
- Proactive, reliable, motivated and fun to work with

## **What we offer**

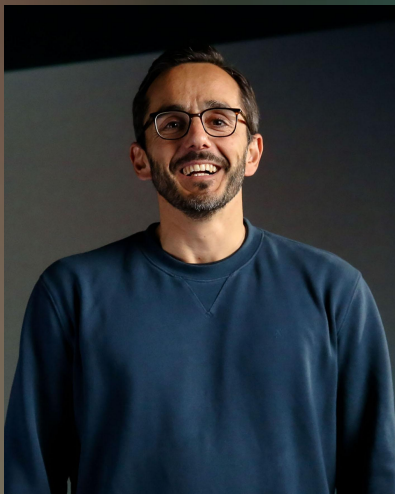

- Get a hands-on experience in material design
- Gain insight into circularity and sustainability projects
- Work in an international team
- Possibility of part-time home office
